## Telescoping Tube

### Telescopic Tube

Telescoping tube adds extra strength. Common uses are in tent poles, shop fittings, furniture and architectural features.

General notes:

- The internal tube can be of any wall thickness
- The external tube can only be of 1.2mm wall thickness
- Material can be of carbon steel or galvanised steel.

To ensure we manufacture the correct product for your needs, each enquiry is treated as custom. We will talk to you to make sure we have the correct internal controls in place for the specific fit you require.

### Stainless Steel Tube

In addition to our carbon steel tube range wakefield also offers Stainless Steel Tubes for applications such as Dairy, Sanitary, Architectural and heat transfer applications. Please refer to our [Stainless Steel Catalogue](#) for more information.
